Quality

Our Photo Books are printed and bound using the highest quality materials. They are digitally printed onto high-quality, photographically approved, 170/250 gram satin and art stock which meets ISO-9706 archival standards. All our Photo Books are professionally hand-stitched and bound, giving each book superior strength. The printing inks are guaranteed not to fade for over 50 years, if not exposed to harsh or ultraviolet light for extended periods of time. Your PhotoBook will be enjoyed for many generations to come.

Each PhotoBook can be created with a choice of attractive colours and book finishes, including buckram, linen and leather hard covers. Each PhotoBook comes complete with a personally designed, photographically printed and laminated dust-jacket.

Content

Emily Rose Designs allows you the opportunity of producing your very own 'coffee-table' book. As a rule, Photo Books contain between 10-150 pages with around 1-3 images per page, depending on your needs and the number of images provided.

Along with your chosen images, accompanying text can be added to help enhance your special memories.
